Professional Summary

Results-driven Full Stack Developer with 2 years of experience in designing, developing, and maintaining scalable web applications. Proficient in PHP Laravel, Java, React.js, MySQL, AWS Cloud, and front-end technologies like HTML, CSS, and JavaScript. Skilled in building e-commerce, healthcare, and trading platforms.

Education Summary

Bachelor of Technology in Computer Science	Graduated, June 2023
G H Raisoni University Saikheda, MP	8.72 CGPA
Diploma in Computer Science	Qualified, June 2020
G H Raisoni University Saikheda, MP	7.81 CGPA
Secondary Board Education	Qualified, March 2017
Kailashpat Singhania High School	07.0 CGPA
Chhindwara MP	

Technical Skills

- Programming Languages: PHP (Laravel), Java, JavaScript (React.js)

- Web Technologies: HTML, CSS, JavaScript

- Database Management: MySQL

- Cloud Technologies: AWS Cloud

- Development Tools: Git, JIRA, Postman

Professional Experience

Full Stack Developer
Zielotech Software Pvt. Ltd. | March 2023 – Present

- Developed and maintained web applications using **PHP Laravel, Java, React, MySQL, AWS Cloud**.
- Worked on **e-commerce, healthcare, and trading platforms**, ensuring high performance and scalability.
- Designed and implemented front-end interfaces using **HTML, CSS, and JavaScript** to enhance user experience.
- Optimized database queries and improved system performance.
- Integrated cloud-based solutions with **AWS services** for secure and scalable deployments.

Projects: -

- ➤ **Stock Trend Prediction Using ML**

  - Designed & developed a web-based project with back-end on Python & Jupyter Notebook.
  - Where I have made a prediction on TESLA Stock.
  - This project Focuses on utilizing machine learning techniques to predict stock trends.
  - By collecting historical stock market data, including indicators such as open price, close price, volume, and high/low prices, the data will undergo preprocessing and feature selection.
  - The project aims to provide investors with accurate predictions and insights for making informed decisions in the stock market.

- ➤ **Semantic Searching Scheme Over Encrypted Data in Public Cloud**

  - **Technologies Used**: HTML, CSS, Java Script, MySQL, PHP and Laravel.
  - Created a web-based project on Semantic Searching Scheme Over Encrypted Data in Public Cloud.
  - This project focuses on developing a semantic searching scheme over encrypted data stored in a public cloud environment.
  - The scheme involves encrypting the data using a secure encryption algorithm and then generating a Secret Key that preserves the semantic meaning of the data.

Extra- Curricular Activities

- Attended AI International Summit at Jalgaon Year 2022.
- Attended Data Science & 3D Printing workshop Year 2020.
- Participated in One-Day International Workshop on "Angular JS to develop Web Apps Faster."

Certifications

- **Full Stack Java Developer Certification** (Naresh IT, Hyderabad) – Completed a six-month training program.

Strength

- ➤ Willingness to learn.
- ➤ Easily Adaptable with new environment
- ➤ Can work under pressure.
- ➤ Target Oriented
